

Submitter: jennifer berg

On Behalf Of:

Committee: Senate Committee On Rules

Measure, Appointment or Topic: SB210

My name is Jennifer Berg and I live outside of Halfway Oregon.

Since coming to reside in Oregon I've experienced many instances where the State Legislature has promoted measures that prioritize the needs of those who live in moderate to densely populated areas at the expense of those residents that live in rural and sparsely populated areas. This bill in particular assumes resources that are not abundant in our communities. In all likelihood the physical polling place I would be required to vote at would be a long drive from where I live, and many elections happen during times when the roads are not necessarily passible.

This Bill is not only wasteful of your time, given the absence of evidence of an increase in voter fraud in the context of vote by mail, it is harmful to the rights of citizens like me who live in the sparsely populated section of the state.

Please do not pass this harmful bill.

Jennifer D. Berg
