

We are two voters who absolutely oppose any measure to require in-person voting on the day of election. SB 210 serves ONLY to disenfranchise Oregon voters! Many voters work by day and care for family by night - are they to NOT have the opportunity to vote? Many voters are home bound - are they to NOT have the opportunity to vote? Many voters are out of state for any number of reasons- are they to NOT have the opportunity to vote?

What is the point of SB 210? It seems grossly undemocratic and unpatriotic.

I have for years and years bragged about Oregon's excellent system of mail-in voting. I have become a much more informed voter because of it.

I get the distinct feeling that the proponents SB 210 actually hope Oregonians are ill-informed and don't vote....what could be the motivation?

We absolutely oppose SB 210 and will fight to retain Oregon's current, exemplary voting system.
