Johnna Wells

On Behalf Of:

Committee:

Senate Committee On Rules

Measure, Appointment or Topic:

SB210

I vehemently oppose this measure to require Oregonian's to vote in person on the date of an election. Providing equal access to voting should be the goal of every healthy democracy.

Voter suppression tactics intentionally undermine our democracy.

Absentee voting, early voting, third-party ballot assistance, and ballot drop boxes are all safe and effective voter resources that are vital for increasing voter participation. Restricting or eliminating these options is an intentional threat to democracy and harms all of us.
