

Submitter: Hillary Hughes

On Behalf Of:

Committee: Senate Committee On Rules

Measure, Appointment or Topic: SB210

Voting by mail allows elderly and people with disabilities/transportation issues/childcare issues/social anxiety/time constraints/employment constarints to vote. The current system is well monitored (my ex husband's vote was questioned because they didn't like his signature) so fraud is avoided. The proposed change limits Oregon voter voices! Respectly, Rev. Hughes
