Senate Committee On Rules

Measure, Appointment or Topic:

SB210

With all the vitriol these days why will Oregonians want to volunteer to be at polling sites putting their safety at risk? I have been voting by mail for half my life. I appreciate the ability to cast my vote each election by dropping off my ballot at a local drop box. I've acquired some physical limitations as I've aged and waiting in lines to vote will be a burden on me as well as my husband. I can only feel this is the product of a party who cannot win control without suppressing others votes. Please, consider the burdens put on many with SB 210. Thank you
