SB210

Voting by mail has been an excellent option for Oregon voters for years. As a now retired person, the difficulties presented in SB 210 making people jump through hoops to be able to vote is unfair and unworkable. I believe this is an attempt to manipulate the voting process to serve the current efforts to interfere with democracy. The current administration has made it clear that it intends to remove any opposition to anything it wants any way it can. The right to vote is critical in the effort to fight against this undemocratic direction.

PLEASE PROTECT OUR RIGHT TO VOTE WITHOUT UNNECESSARY AND CONTRIVED OBSTACLES.

Thank you for your service.
