On Behalf Of:

Committee: Joint Committee On Ways and Means Subcommittee On  
Natural Resources

Measure, Appointment or Topic: HB5009

Testimony for the Private Forest Accord (PFA)

Please support full funding of the FPA under HB 5009 to continue to protect Oregon's clean water and healthy forests. This is extremely important to our emotional and physical well being, our pride as a state and our commitment to our next generation. I have three children ages 5-10 and most all of our family outings revolve around the outdoors which we love and take great care to protect. Our best memories as a family are in the woods and in the water. Please protect this and let it live on and grow well into the future.
