You absolute pinecones.

The gift of being able to vote when time allows in the comfort of my own home. Where I can research and thoughtfully fill out my ballot instead of standing in a line of indeterminate wait times? Have you lost your minds?

This proposal will disenfranchise many Oregon voters who have disabilities, age related limitations or financial or child rearing obligations.

Again, you pack of unsharpened pencils need to stand up for states rights and let us vote by mail. Do better.
