

Submitter:

Harold McEwen

On Behalf Of:

Committee:

Senate Committee On Rules

Measure, Appointment or Topic:

SB210

I strongly oppose this measure. Having come from a state that required in-person voting, I have experienced the pitfalls. Time away from work, long lines, the look you get when you declare party, the comments you hear that are “passively made”. The current voting system in Oregon resolves all of these issues. On top of resolving the negatives, it also allows for real-time information on measures to make an informed decision.
