Committee:

Senate Committee On Rules

Measure, Appointment or Topic:

SB210

We have been voting by mail for a very long time. I am old enough to remember standing in long lines to do an in person vote. Today's fast moving world would make waiting in line an impossible task for many. Without mail in ballots the percentage of people who vote will drop significantly. Don't go backwards. Oregon has been a leader in this area...MAGA should not be allowed to send us into useless election decisions.
