Committee:

Senate Committee On Rules

Measure, Appointment or Topic:

SB210

This bill goes against everything our democracy stands for. Mail in voting has opened the door to civic participation for many of us who would otherwise face financial or other hardships if the only way to vote was in person. This bill creates an unfair situation. Its whole purpose seems to be to disenfranchise more citizens, without resolving any existing issues in our voting and electoral systems. It is petty and self centered.
