Senate Committee On Rules

Measure, Appointment or Topic:

SB210

I support vote in person on Election Day. Under the current system we have achieved voter apathy. Vote in person on election day supports educated voters who are genuinely engaged in our system of government, and eliminates potentials for fraudulent voting. Under our current system voters are not trusting the outcome of their votes. We need to build back the trust in our voting system, which will be done by in person voting. I strongly encourage the legislature to make in-person day of election the standard voting method in Oregon
