Senate Committee On Rules

Measure, Appointment or Topic:

SB210

Our vote-by-mail system in Oregon is the envy of other states. Changing it makes no sense. We know that the "problem" this is meant to solve does not exist -- neither in Oregon nor in the United States as a whole do we have fraudulent voting in significant numbers.

Senator Smith is acting for his party and POTUS in submitting this DOGE-like legislation that is intended to break a perfectly good system that has long worked for all.

I OPPOSE SB 210, which would if passed would disenfranchise large numbers of voters, cost the state more, and create barriers to exercising the basic right of citizens.
