

Submitter: Craig Lawrence

On Behalf Of:

Committee: Senate Committee On Rules

Measure, Appointment or Topic: SB210

I strongly oppose this proposal. Paper ballots are one of the most secure and transparent form of voting. There has been no evidence of voter fraud with mail in votes. If anything, I'm more suspicious of voting machines and computers that can be manipulated.

I travel for work and am mostly out of town during the week so in person would be next to impossible for me. Mail in voting has also allowed me to become a more informed voter. I can research ballot measures and candidate's before voting vs being surprised in the voting booth with things I wasn't expecting. In the past I often didn't cast a vote on things I wasn't expecting or made rash decisions I later regretted because I didn't have the time to look into it. Please don't change our proven way of voting & oppose measure SB 210. Thank you, from a registered voter, Craig Lawrence 2130 Trillium St Eugene OR 97405
