Measure, Appointment or Topic: SB210

I strongly oppose requiring in-person voting in Oregon. Requiring in-person voting leads to low voter turnout, especially for our most marginalized communities who will likely face multiple barriers to accessibility for in person voting including but not limited to: inability to get a day off work to vote (it would take all day, we've all seen the lines when in-person voting is required), lack of childcare, literal inaccessibility due to disability/mobility, transportation, etc. Requiring in-person voting is not only inequitable, it is inefficient, which is why I strongly oppose SB 210.
