

Submitter:	Paul Vozdic
On Behalf Of:	Self
Committee:	Senate Committee On Rules
Measure, Appointment or Topic:	SB210

Voter fraud in general has been extremely exaggerated in a blatant attempt to suppress votes. Mail in ballots are safe and secure and have been used in Oregon with great success since 1998. In addition vote-by-mail is overwhelmingly popular with both Democrats and Republicans. Any attempt to do away with this program is an obvious attempt to subvert the will of the people and an obvious form of voter suppression. Rest assured any politician who supports this measure will pay a major political price. Obviously I am vehemently against this bill.
