Mail in voting allows me to make informed decisions about the candidates. I have time to think about my vote and research who I am voting for. I am also handicapped or mobility challenged, I am not able to stand in a line for hours at a time and without mail in voting you would essentially be removing my right to vote, maybe that is what the plan is. The fact that our government continues to backslide is pretty upsetting, maybe it's time for a revolution. Let's keep moving forward people, if you are afraid of change you are probably the problem.
