Committee:

Senate Committee On Rules

Measure, Appointment or Topic:

SB210

I strongly oppose SB210, which wants the standard of voting to be in person. Oregon has used mail-in voting for many years with very little proof of deception by this method. I believe the current administration wants to suppress voters by making this the standard. I have often looked at newsreels of people standing in lines for hours in order to vote in person and thought, "Thank goodness that we in Oregon do not have to do this!" Imagine the elderly having to endure this. Imagine working parents having to find the time to waste their time and energy and money to do this. Please leave our way of voting alone!
