Committee:

Senate Committee On Rules

Measure, Appointment or Topic:

SB210

I think this a great and long overdue idea. I think this will make are elections safer and saucier. I could see maybe instead of one day to vote allow two days before the election day and on the day of the election.

To me it is only common sense to have in person voting and show valid ID. After all you need to show up in person and show valid ID to get on a plain.
