

Submitter:	Shannon Curtis
On Behalf Of:	Citizen
Committee:	Senate Committee On Rules
Measure, Appointment or Topic:	SB210

End mail in voting and bring secure elections back. It has already been found that there is fraud in our current elections system. State agencies ability to register anyone to vote without proof of citizenship, has created doubt in the voting roll and security of the system. The unwillingness of state officials to clean up the voter rolls and other problems causes disenfranchisement with voters. The only way to secure our elections is to go back the time tested method of voting in person. This step would ensure voter could be confident in our elections again. Vote to pass SB 210.
