

Submitter:

Carol Smalley

On Behalf Of:

Committee:

Senate Committee On Rules

Measure, Appointment or Topic:

SB210

Being able to vote by mail encourages voting. No one has to drive or stand in line. This mean having to driving in bad weather, or having to taking time from work to vote will not impede a person's ability to get to voting locations. This means people with limited mobility, and older people are more likely to have their voices heard. The effort to kill voting by mail is an effort to limit who will vote. Please do not stop voting by mail.
