Measure, Appointment or Topic:

SB210

Mail in voting is something I strongly support. There is a strong history of voter repression laws focusing on removing or limiting mail in ballots. We live in a democracy where equal access to democracy includes access to voting. Not everyone can vote and participate in democracy if in person voting is the only option. Many types of jobs and many people with various types of disabilities would experience excessive hardship from this bill and be discouraged or locked out from the core right of democracy- the right to vote.
