

Submitter:

Valery King

On Behalf Of:

Committee:

Senate Committee On Rules

Measure, Appointment or Topic:

SB210

I urge the Senate to defeat this bill. Our vote by mail system has proven itself as a secure way for citizens to vote for more than two decades. There is absolutely no evidence to the contrary. It cannot be hacked since the computers are not connected to the internet. Votes are secret which shields voters from possible intimidation at a polling place. If something goes wrong there is a paper trail to follow. Please vote NO.
