

Submitter: Bradley Cecil

On Behalf Of:

Committee: Senate Committee On Rules

Measure, Appointment or Topic: SB210

In regards to SB 210, in-person voting should not be the standard for our voting system on election day. Mail-in voting has been proved to be a secure and reliable system. Mail-in voting provides opportunity for many Oregonians who may not have the time or capabilities to do in-person voting. Having in-person voting be the standard will be reduce overall participation in our democracy which is the opposite and un-intended outcome of our voting system

I urge our representatives to oppose SB 210
