Committee:

Senate Committee On Rules

Measure, Appointment or Topic:

SB210

Why fix things that work for millions and have for years?' If anything, the rest of the country should mandate Oregon's voting and registration process. These changes coming down from Republicans are confusing, inefficient, costly and unnecessary. For me, a senior with a disability it would be a burden to vote. But perhaps that is what they want. Democracy in the U.S. is being destroyed quickly. By the right-wing oligarchy. Please vote no.
