Committee: Senate Committee On Rules

Measure, Appointment or Topic: SB210

Oregon has it been a leader in mail and voting for success and provides access and high voter turnout with the current mail-in voting process.

As a person with a disability, it makes my ability to vote much simpler than requesting a mail in balance since the process is not simple. All oregonians benefit from mail and voting and it ensures privacy, eliminates for the fraud of all kinds.

I strongly oppose any changes to our current voting by mail. Thank you, Tim Shearer
