

Submitter: Angela Nolan

On Behalf Of:

Committee: Senate Committee On Rules

Measure, Appointment or Topic: SB210

I'm a lifelong Oregonian who strongly opposes removing our time-tested and SAFE mail in ballot system. This program started as a result of bipartisan support and has worked successfully in the decades since. For me personally, it gives me an opportunity to review candidates and ballot measures on my time. It's convenient, safe, and easy - why change that? Voting should be accessible to everyone, including my elderly voter with mobility issues. It's our patriotic duty to protect Oregon's mail in ballot program.
