Measure, Appointment or Topic: SB210
To whom it make concern:

I strongly oppose this bill. There is no need for this bill. Mail in voting IS SAFE and Secure. It has NOT been proven to have widespread fraud. This bill would essentially suppress votes as elderly and those with mobility issues might be unable to exercise their CONSTITUTIONAL Right !!! Also, our citizens in the military deserve the right to vote in elections as they so nobley serve our country. As for the illegal immigrant voting... again, it is such a rare occurrence as to be negligible. The fear mongering needs to stop about immigrants. I strongly urge you to oppose this bill. This is an evil bill that only serves to suppress votes.
