SB210

I have lived in OR most of my adult life. I am used to mail-in voting, and I admit that it is convenient, and I like having several days to weigh issues & actually vote.

HOWEVER - a little patriotic inconvenience is worth it - providing ID at the polling place is a good idea. Most of the country votes in person. So should we. I support the idea of a Federal/State holiday to make it easier as well. Overall, I support in-person voting.
