Committee:

Senate Committee On Rules

Measure, Appointment or Topic:

SB210

I've lived in states where in-person voting was required. It's very time consuming and sometimes it required me to travel a long distance to the polling place that was designated for my address. It's not feasible for the elderly, disabled, or low-income voters to get to the polls. Also, an employee taking time off of work is a loss of productivity for employers. Mail-in ballots are the most beneficial for Oregonians.
