

Submitter:	Patrick O'Dell
On Behalf Of:	SB210
Committee:	Senate Committee On Rules
Measure, Appointment or Topic:	SB210

Dear Madams and Sirs,

I am a registered participating Oregon voter and strongly oppose any interference of any kind with the present mail-in/voter box dropoff ballot. A participatory democracy is made better by the maximum number of eligible voters being included. For many reasons, including decreased mobility, lack of transportation or inability utilize public transport, many eligible voters, including elderly, are unable to get to on-site voting. Also the present system has a long history, and is quite secure, and allows the voter to study the included voter's pamphlet in privacy and with adequate time to make meaningful comparisons. Please keep the present system! Respectfully Yours,  
Patrick O'Dell
