SB210

Dear Senators Jama, Bonham, Golden, Manning, and Thatcher

My name is Robert Waterhouse and I am a resident of Lebanon, Oregon. Oregon is recognized as an innovator in democratic action, from bottle recycling to mandating coastal access. One of Oregon's greatest achievements, in my opinion, is our mail-in ballot system for all elections. Gone are the days of standing for hours in line to vote, or having to forego voting completely due to conflicting demands from job or family. This is true democracy, when all eligible voters are can cast a vote at their convenience. I encourage you to vote no to stop this anti-democratic measure from proceeding.
