Measure, Appointment or Topic:

SB210

Hello,

Mail in ballots have made voting so much better for me since I moved from a state that didn't have this option. I'm able to really sit with the ballot and conduct proper research into each candidate from home in a manor that is conducive for my learning style and stress free. I also do not have to leave work or disrupt my day to day activities/work to do this which makes it a better fit.
