Committee:

Senate Committee On Rules

Measure, Appointment or Topic:

SB210

I absolutely OPPOSE this bill with every fiber of my being. It is discriminatory in nature and in intent. No Oregonian in his/her right mind would vote for this. My husband is 100% blind. He does not drive, obviously. He is but one example of the hundreds of thousands of Oregonians who, for reasons of disability, lack of means to access a voting station, lack of ability to take time off from work in a paid job or work in an unpaid job..such as caring for children, the ill, the disabled, the elderly..; as well as many people who for various reasons are unable to get to a voting station on a particular day--would lose their franchise, their inalienable right to vote, if this bill were enacted into law.

Voting by mail has worked in Oregon for years to insure the greatest opportunity for people to vote and vote without interference from those who seek to deprive others of their right to vote.

You absolutely must not pass this bill nor even consider passing it if you don't want a mass uprising of furious citizens.

Diana Richardson
