

Submitter:

Sally Jennings

On Behalf Of:

Committee:

Senate Committee On Rules

Measure, Appointment or Topic:

SB210

This bill is yet another form of voter suppression. Vote by mail is important to many of us who live in rural areas, are housebound, and/or do not have transportation. The current system works. There is no need to change it. This bill is catering to Trump's voter suppression scheme. It should never be introduced. Our democracy depends on our freedom to vote. Do not diminish our rights.
