Measure, Appointment or Topic: SB210

The current mail-in voting process has proven to be an effective means for all eligible voters to cast their ballots. Contrary to republican talking points about waste, fraud, and abuse - the current process has not allowed ineligible or fraudulent ballots to be cast in volumes that would affect the outcome of our elections. The proposed legislation would disenfranchise Oregonian's right to vote. Anyone with a functional brain cell knows that this is an attempt by the Republican party to control the process and manipulate the outcome. Please vote NO on this oppressive, selfish, irrational bill and all other proposed legislation rooted in the current administration's unconstitutional project 2025 agenda.
