

Submitter:

Charlotte Hadden

On Behalf Of:

Committee:

Senate Committee On Rules

Measure, Appointment or Topic:

SB210

To whom it may concern:

Voting by mail is an absolute right in this modern day. It's secure and allows more working people to vote since we do not have a national voting holiday(s). To remain a true democracy Oregon needs to retain its vote by mail rights and the nation needs to expand the law federally. I strongly oppose this measure and find its presence a true offense to democracy.
