Voting by mail in Oregon has proven to be effective and safe and, most of all, accessible. Unless we provide paid time off for people to vote or move elections to evenings and weekends, requiring people to go to an election site to vote disenfranchises anyone who works and people from rural areas who have to travel long distances to get to polling places. Additionally, voting by mail makes for more informed voters. Instead of simply voting party line, I read through every statement to understand the concerns. Please do not cave to the misinformation that states there is voter fraud when time and again it has proven to be an untrue fear designed to suppress voting. Vote NO.
