Senate Committee On Rules

Measure, Appointment or Topic:

SB210

I strongly oppose any legislation that would dismantle Oregon's successful vote-by-mail system. For decades, this system has proven to be accessible, maximizing voter participation by making voting convenient for all Oregonians, especially those with disabilities, limited mobility, or demanding work schedules. It is also secure, including robust measures that ensure the integrity of our elections, and efficient, providing a cost-effective method for accurate and timely results. Eliminating vote-by-mail would disenfranchise countless Oregonians and undermine the principles of fair and accessible elections. This system has proven to be a cornerstone of Oregon's democracy, and any attempt to eliminate it is a direct assault on the rights of Oregon voters. This bill is nothing more than partisan nonsense.
