

Submitter:

Glenna Green

On Behalf Of:

Committee:

Senate Committee On Rules

Measure, Appointment or Topic:

SB210

This is a bill looking for a problem and does not deserve to move out of committee. The stated goal of ensuring honest elections is a whitewashing of the real goal, which is simply to make it harder for people to vote, and not just any people, but people who, due to the expense of transportation or the demands of having to work several jobs to survive, cannot get to in-person voting places with all the demands for ID met. As a retired rural Mail Carrier and a trained and experienced elections observer, I firmly believe our Oregon elections are run with integrity and a passion for helping every eligible voter be heard. Oregonians love our vote-by-mail. Let's keep it as it is.
