Measure, Appointment or Topic:	SB210

The mail ballot system in Oregon is outstanding. It gives citizens an excellent way to make their voices heard. It allows citizens with disabilities to easily participate in government. It is a great example for the rest of the nation to see how mail in balloting can work and has been doing so for 30 years. Why would we want to change to a less efficient, more restrictive and expensive method when there is no evidence of significant fraud or a problem with our current system.
