Measure, Appointment or Topic:

SB210

I do not support making in person voting the standard. I support continuing the vote by mail as the standard method for voting. Voting in person will negatively impact the citizens of Oregon's right to vote by making it harder to vote. Voting in person is inconvenient, and can be easily manipulated to make access to voting more difficult if a citizen cannot get to a polling place, it's a less democratic method for voting than mail in voting. Mail in voting allows all eligible citizens in Oregon the ability to vote. Keep our right to vote with mail in voting!
