On Behalf Of:

Committee: Senate Committee On Rules

Measure, Appointment or Topic: SB210

I strongly oppose doing away with vote by mail. Many people would not be able to vote if they have to do so in person. Severely handicapped people, bedridden people, people who work long hours, people who live in rural communities without access to transportation, would all find it difficult, if not impossible to vote. Being able to vote by mail makes it much easier to read the ballot carefully and thoughtfully fill it out.
