

Submitter: Stacey Maier

On Behalf Of:

Committee: Senate Committee On Rules

Measure, Appointment or Topic: SB210

Oregon has thrived as a vote-by-mail state, and that right must be protected. Every American deserves the option to vote by mail—regardless of age, ability, or access to polling sites. Denying this option silences the voices of seniors, people with disabilities, rural residents, and countless others who cannot vote in person.

Mail-in voting strengthens our democracy. It empowers citizens to thoroughly research candidates and issues, cast well-informed votes, and participate from the safety and convenience of their homes. Forcing in-person voting only serves to exclude, disenfranchise, and erode the very foundation of our democratic process.

SB210 is a blatant attempt to suppress voters through intimidation and exclusion to manipulate election outcomes. This attack on our constitutional rights is unacceptable.

Stand up for free and fair elections—say NO to SB210.

Defend democracy. Protect every voice. Reject SB210.
