SB210

Is Sen. Brock insane? Or is he just trying to suck up to the dangerous, deranged buffoon now have to call president? The fact that he's president is so scary---every agency is being hollowed out so it can't function---Project 2025 is right on target to succeed.

This bill, SB210, would take away our existing right to vote by mail! What Oregonian in their right mind would vote for this?
