Mail in voting is safe, accurate and there is no proof otherwise.

Voting is a right, not a privilege ~ but not everyone can make it to the polls in person. That's why mail-in voting is essential for a fair democracy, ensuring that EVERY eligible voter has a voice, including:

People with disabilities & special needs who may face physical or logistical challenges at polling places.

Older adults who may have mobility issues or transportation barriers.

Workers & caregivers juggling long hours or multiple jobs.

Those with mental disabilities who may need extra time and support to cast their vote.

Mail-in voting makes it possible for millions to participate safely, securely, and conveniently ~ because democracy works best when everyone can take part!

Sincerely,
Janet Lea
