

Submitter:	Barbara Hansen
On Behalf Of:	Opposition to change voting by mail
Committee:	Senate Committee On Rules
Measure, Appointment or Topic:	SB210

Dear Committee,

My husband and I have lived in 3 states where we have had to vote in person! We're so grateful for being able to vote at home! We gather all the information from the voting pamphlet and ads. Then we take the time to also google information from the web. We are much more thoughtful voters due to being able to vote at home. As one gets older, voting by mail also helps people who are disabled and the elderly to participate in our democracy! This is the best method for voting! Please do not change the system!

Sincerely,

Barbara and Jack Hansen
