

Submitter: Caresa Olson  
On Behalf Of: Ora k-12  
Committee: House Committee On Education  
Measure, Appointment or Topic: HB2583

On behalf of online schools there is more of a successful rate of graduated students then public. Online is the same and my kids are fully successful with there online schools. I would like to see more funding for more field trips. More funding for education needs. I belive in more help. And I am a proud parent of oregon online virtual schools.
