Committee:

Senate Committee On Rules

Measure, Appointment or Topic:

SB210

I strongly oppose taking away mail in voting and only having in person voting. This would hurt working families, seniors, rural communities, and people with disabilities who rely on mail voting. I LOVE voting by mail and I'll never understand why people would want to make it more challenging. Voting is a right and mail in ballots makes it possible for everyone. I often travel for work and knowing that I can mail in my ballot, make my vote count and not have to be in town on that day is such a relief.

Please do what's right for all Oregonians and oppose these changes.
