Senate Committee On Rules

Measure, Appointment or Topic:

SB210

I strongly oppose SB210. SB210 is nothing more than an attempt to suppress the vote of a large portion of the electorate. For many voters, the elderly and disabled, may simply not be able to get to a polling place to vote. It has been shown that mail in voting, here in Oregon, is safe and secure. Also, staffing polling stations does not come without cost. Facilities must be paid rent and the polling staff must be paid a stipend for their time. Mass voter fraud is nothing more than a scare tactic proliferated by sick MAGA conspiracy theorists.
